

Describe an equipment or tool that you mostly use at home.

1. What is it
2. how do you use it?
3. why it is important to you
4. **and explain how the equipment works.**

I want to describe my electric toothbrush I use every day at home. It is very convenient to use: first charge the battery if it is low battery (I usually charge once a week). After prepared toothpaste I maintain my electric toothbrush from outer to inner tooth surfaces, it cleans gently, thoroughly and automatically.

I think electric toothbrushes are important for my teeth health. I know, in many western countries, it is a good custom for people to go to see dentist regularly. But almost all of Chinese people don't do it until they have found something wrong with their teeth. Some dentists claim that electric toothbrushes have a stronger clean power than manual ones. So I strongly believe that electric toothbrushes are helpful for preventing tooth decay.

First reason: 1. Chinese people pay less attention to teeth health. 2. power of Electric ones is stronger

phrasal verbs: go to see dentist

Another reason to support your ideas. Three keypoints to help you remember: 1 I sweets. 2 I worry about my teeth. 3. no teeth, no food

In addition, I love sweet food very much, such as New York cheesecakes, chocolates, candy and so on. My friends call me Sugar Man. I worry about my teeth health. I cannot enjoy the pleasure from food without healthy and strong teeth. So I bought that electric toothbrush and use it every day.

cheesecake

Cheesecake is a sweet dessert consisting of one or more layers. The main, and thickest layer, consists of a mixture of soft, fresh cheese (typically cream cheese or ricotta), eggs, and sugar.
